Relational Database Design

The Structured Query Language (SQL)

Advanced Topics and Future Trends in Database Technologies

University of Colorado Boulder

Oct 16, 2026

Odar Javier Alcocer

has successfully completed the online Specialization

Databases for Data Scientists

In this specialization learners developed essential skills about relational databases, including relational database design, database software fundamentals, and how to use the Structured Query Language (SQL) to work with databases. The specialization also introduced advanced topics in the field, such as database administration, data warehouse, big data, and NoSQL. Learners completed multiple projects to apply their new knowledge and skills.

Di Wu
Instructor
Data Science

Alan Paradise
Teaching Professor
Computer Science

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
